

FOR IMMEDIATE RELEASE

February 2, 2005

**Armstrong Enterprise Communications
Recognized as e-Business Solutions Provider of the Year by ASI.**

Armstrong Enterprise Communications of Fairfax Virginia has been selected by Advanced Solutions, International as the e-Business Solutions Provider of 2004 at its recent Innovations Conference in Bethesda, Maryland. Armstrong was selected as the leader in e-Business Solutions from the entire pool of Authorized iMIS Solutions Providers. "This award recognizes Armstrong for outstanding performance and commitment to excellence as the leader in delivering our e-Business Solutions" said Robert Alves, CEO of ASI.

This award is in recognition of Armstrong's leadership in the field for implementing enterprise-wide productivity solutions for Associations, Foundations, and other Not-For-Profit organizations. In addition to implementation of e-Business solutions, Armstrong's portfolio of services includes consulting and evaluation of customer's needs and matching available technology. Armstrong specializes in management systems for the non-profit and commercial sectors which include Microsoft ERP solutions such as Great Plains, Small Business manager along with a variety of other membership and Customer Relationship Management solutions.

"The suite of iMIS e-Commerce and e-Business solutions is an excellent platform for our work in leveraging technology to realize our association and foundation clients' strategic goals." said Keith Hunter, President of Armstrong. "ASI delivers software products that provide deployable, packaged solutions with the flexibility and tools required for us to deliver specialized solutions and truly great web sites."

During the award presentation, Armstrong was also inducted into the ASI Chairman's Circle for the seventh consecutive year; representing every year since the inception of the prestigious Chairman's Circle recognition.

Authorized iMIS Solution Providers are independent companies that provide solutions and services to corporate, government and small or medium sized businesses.

ASI is an international provider of membership, fundraising, and Web site management software solutions. iMIS, the company's flagship software built on Microsoft .NET, is an industry leader with more than 33,000 users worldwide. ASI distributes its solutions through a global network of local Solution Providers backed by award-winning technical support.
